

What Changed & Why It Works

Oliver Bennett · Technical Project Manager, 7 years delivering ERP/cloud-migration programmes in the UK, targeting Senior IT Programme Manager roles · Illustrative sample

Personal Statement

Before: *Experienced and hard-working IT professional with a track record of managing projects from start to finish. Excellent stakeholder management skills.*

After: Technical Project Manager (PRINCE2 7 Practitioner; ITIL 4 Foundation; PMP Candidate) with 7 years delivering ERP, CRM, and cloud-migration programmes... hybrid delivery on budgets up to £2.4M.

Why it works: "Excellent stakeholder management" is a claim, not evidence. The after replaces adjectives with certifications, delivery types, and budget size, all of them searchable.

Experience Bullets

Before: *Managed IT projects and budgets across the business. Worked with stakeholders and managed project risks.*

After: Directed a £2.4M ERP migration (SAP S/4HANA) across 6 business units using hybrid delivery — landing go-live on schedule and 4% under budget.

Why it works: The after bullets name the delivery type, platform, and governance method — all recruiter search terms — and attach quantified scope.

Skills & Certifications

Before: *Project management · Stakeholder management · Risk management · Budgeting · Leadership · MS Office (6 items)*

After: PRINCE2 7 Practitioner · ITIL 4 Foundation · PMP Candidate · Hybrid Delivery · ERP / CRM Implementation · Cloud Migration (Azure, AWS) · RAID · Jira · Microsoft Project · Confluence (21 items)

Why it works: Named certifications and delivery types are what an IT PM recruiter's Boolean search is actually built from — "MS Office" and "Leadership" match nothing.

LinkedIn Headline & About

Before: *IT Project Manager at Halcyon Financial Group*

After: Technical Project Manager | PRINCE2 7 Practitioner | ERP & Cloud Migration | Hybrid Delivery | £2.4M+ Programmes | Jira, Confluence

Why it works: The after carries the certification, delivery types, budget size, and named tools a UK enterprise IT recruiter's search is built from.
